Record hotkeys (Macro) for faster navigation of the Web. Keymaps are created for the most used browsers: Safari, Firefox, Opera and Internet Explorer. You can easily record every Web navigation: one key for each link, one key for each image and one for each video. With Keymacro you can run on Mac OS X and Windows too. In the Keymacro we provide you tools to create your own custom hotkeys. There are also "standard" hotkeys for Safari, Firefox and Internet Explorer. Keymacro is free, but with certain limitations. If you want to make your custom keys we recommend buying the pro version. With the pro version you have many more functions, including: - More URL support: you can use more than just a single URL - Tabs support: you can save your Mac OS X (Tab) shortcuts too - Zoom in, Zoom out and Ctrl+/- shortcuts - Script support (if you are really hardcore): you can create your own Javascript functions - Extra files are provided which are not supported by the free version: - CSH and DSH files. These files are used by the custom scripts. -.plist files: the custom shortcuts are stored in these files (Mac OS X - you will get a *.plist.html file - Windows: you will get a *.plist.txt file) - Changelog: complete changelog - The additional files can be found in the zip file provided with the pro version Keymacro is a universal app. It works for any MacOS system, including Mac OS X 10.8.5 and higher, OS X 10.9 Mavericks, and Mac OS X 10.10 Yosemite. System Requirements: Windows: Windows 7/8/10 Mac OS X: OS X 10.9 Mavericks OS X 10.10 Yosemite OS X 10.11 El Capitan Mac OS X 10.12 Sierra The Mac app has also been tested on the following Mac systems: MacBook (13-inch, Mid 2010) MacBook (13-inch, Late 2010) MacBook Pro (13-inch, Early 2011) MacBook Pro (13-inch, Mid 2011) MacBook Pro (13-inch, Mid 2012) MacBook Pro (13-inch, Mid 2013) MacBook Pro (13-inch, Mid 2014) MacBook Pro (15-inch, Mid 2015) MacBook Pro (13 1d6a3396d6

Similar to VidMasta, DownloadTube is a tool that allows you to download movies from the Internet. What makes it stand out from the crowd is its ability to stream, and save, videos, images, and more. For instance, if you spot a video of a concert you really want to download, or a cat picture you'd like to have as your screen saver, this tool will allow you to do it. The same goes with downloads of text documents, images, and links to all kinds of different documents. App integrations: With VidMasta you can even download files from your online accounts. For instance, you can save documents from services like Google Docs, Evernote and Microsoft OneDrive directly to your downloads folder. You can also add files from websites to your downloads folder, as well as upload files to OneDrive and Google Drive. DownloadTube's file and video downloads are also independent, so you can download and save two files at the same time. Plus, since you can add your files from different services, you can actually create a pretty powerful download manager. The only thing that disappoints us is the fact that the application is not for the Windows OS. You can only run it on Android, iOS and Mac, which means you are forced to download the app's installer, then place it on your computer. Pros: Implements a powerful download manager. The app is easy to use. You can save files from different online services. You can even stream and download videos, images and other documents. Rings are increasingly popular fashion accessories and more people are opting to buy them online. With this in mind, if you're looking to sell your old, discontinued jewellery, you should consider a website such as Bidorbuy, where you can get a great deal of free, informed feedback from people interested in buying your items. Advantages of the Bidorbuy website With Bidorbuy, you have access to thousands of people, who can search for your items through the auction portal. Most people are actively looking for jewellery or household items, but even if your items are in the wrong category, there's still a good chance that somebody will buy them. You don't need to worry about shipping costs, as you can add an image of the item, or its description, price and contact details. You can also add information about the type of item,
