Manage Your Affiliate Network - You can manage all your Affiliate networks easily in My Affiliate Master - Affiliates can earn commission on the sales they have made - Affiliates can be seen by customers to do their business - Improve your sales by promoting in Affiliate networks These days websites use a lot of JavaScript to increase and manage the user experience. However, this JavaScript can be a security risk for your users as well. Therefore we provide you with “RevSlider Pro” a secure content slider that protects users against the risk of third-party scripts. Protect Your Website from Ad Hacks - Slides can be displayed without user’s interaction - Dynamic content can be shown without reloading the page (e.g. on product variations) - Block the execution of any JavaScript in your slider content - An image map can be added to every slide - Image Cropping - Flash Google has just announced Google Instant has been rolled out to a limited number of users. The feature, which allows the web search engine to instantly recognize the words typed by users, has been deployed by the popular tech giant on the US and UK versions of its popular search engine. Google Instant search has already been introduced in Ireland and India with Google rolling out this feature on more countries like Canada and Spain in the near future. Google Instant search was one of the major user interface changes in the past year that has also given some of its rival products like Yahoo! search, Bing and Ask.com a run for their money.Q: I have a UITableViewController in which I'm trying to add a UITableViewCell with custom text and select rows like an iTunes song list I have a UITableViewController in which I'm trying to add a UITableViewCell with custom text and select rows like an iTunes song list. How do I do this? This is what I have so far in my
